

From the NHL to local house leagues and every league in between, OES Scoreboards has a long history of partnering with hockey facilities to bring our scoreboards, videoboards & timing accessories to arenas

Let us help you create a dynamic and vibrant scoring and video display that will enhance game excitement, delight players and wow your fans!

OES is a proud supporter of the Canadian Hockey League (CHL) Look for OES solutions in your favourite team's facility.

In today's modern time, venues are installing larger, detailed, custom center-hung scoreboards! We are committed to getting you the best solution for your needs. Focusing on the details to ensure your game day experience runs smoothly from installation to the final horn. Your display is built to last with the best components. Building with LED modules, rather than larger LED panels, makes it possible to bring almost any creative display concept to life. Seamless bends, curves and LED corner shrouds add more space for dynamic messaging.

Everyone deserves to experience the same experience in the building. The fans that are right up against the glass are even able to enjoy the video displays as teams are also including additional video displays in the center of the center-hung. Being constantly challenged to create a fan experience that meets or exceeds what fans can get at home is always the challenge. To do this at every event requires detailed service while making sure that controlling your production is flawless. Our professional installation and service team helps make that happen with the training of the media operational systems.

Easily broadcast and entertain spectators with a steady stream of live video feeds, sponsor ads, team messages, still and motion graphics with Bolt, OES' live event production suite. For an enhance viewing experience, connect Bolt to your OES controller and display a wide range of real time scoring and stats information during your event.

"I'd like to add my thanks to everyone involved both from OES and the City. Dave and his team were first-rate and we appreciate the professionalism and efficiency with which they went about doing the installation work. Thanks also to Jason and the city staff for accommodating all that was needed to allow this installation to occur in the middle of the hospital bed setup. Dana, despite the strange times we are living, all of you came together to make this project a reality and did so on-time and on-budget. The citizens of the Sault and the fans of the Soo Greyhounds are the true beneficiaries and I can't wait for the opportunity for them to experience the new videoboard at our first game of the season."

Tim Lukenda - President & Governor of the Sault Ste Marie Greyhounds , Sault Ste Marie
